Curriculum Impact Statement

Impact Statement

The Lancashire Passport for PE App is how we assess the impact of our curriculum. We are able to mark off objectives on our class pages to show whether children are developing, expected or have mastered skills. To support this we are able to upload photos and videos for supporting evidence – this gives us a well-rounded picture of assessment and enables monitoring of skills. This is an ongoing process that informs day-to-day teaching and end of year and key stage expectations.

The App also enables us to support judgements of children who are gifted and talented in PE subjects. These children, who may be of greater depth in any PE area, can then be supported in school or signposted to clubs outside school who may be able to develop their talents. These children may also be identified as sports leaders, who will support younger children in their acquisition of skills in other year groups.

Any further questions about how we measure of impact in PE may be directed towards our PE subject Leader.
